# INTRODUCTION

I am a passionate multimedia student with a strong foundation in digital media interactive production and design.

I specialize in creating visually compelling content across various platforms.

I am eager to continue learning and growing in the multimedia field, seeking opportunities to work on diverse projects that challenge my abilities and expand my horizons.

# 360 TOUR

SCHOOL WORK: ALL OWN WORK

The project leverages cutting-edge 360° technology to showcase the beauty of the garden, making it accessible to a global audience. Through engaging visuals, intuitive navigation, and integrated informational content, the virtual tour bridges the gap between digital exploration and real-world experiences.

## BOARD GAME ONLINE SHOP

The website focuses on both functionality and aesthetics, ensuring users can easily navigate through various categories while enjoying a rich, interactive experience. It caters to board game lovers of all ages, from casual players to hardcore enthusiasts, fostering a sense of community and excitement around tabletop gaming.

The website features a clean, modern design with a dark background. It includes three main sections: a 'Hot Sale' section with a sunset background, a 'New Game' section with a futuristic cityscape background, and a 'WELCOME BOARD GAME' section with a purple gradient background. Each section displays a grid of board game boxes with their names, descriptions, and prices. A search bar and contact links are located at the top of the page. A large image of the board game 'Wingspan' is shown in the bottom right corner.
